PROJECTS

[Sundown studio ↗](#)
Dec 2024 - Jan 2025

In this project I we used HTMl CSS and JS to make it responsive I have used media queries I learned about the animation and one new thing which I have encountered here was swiper and small animation that make website more interesting and dynamic.

[My protfolio ↗](#)
Dec 2024 - Jan 2025

I have bulid my portfolio using HTM CSS JS and Bootstrap. In this bootstrap took care of responsiveness of the website I just need to use the classes precisely I have written little bit of custom CSS as well to give some finishing touches.
